Ergnzung des AnimeVon BOND123Jeder Fan des genialen Anime Films "5 Centimeters per second" wird an dieser Manga Adaption Gefallen finden. Zwar werden viele Szenen einfach nur in Manga Form bertragen, doch es gibt auch viele Erzhlstrnge die im Manga mehr Details verpasst bekommen und mehr auserzht werden. Der Zeichenstil ist wunderschn und wie auch schon der Anime bringt mich der Manga immer wieder zum Weinen. Meine Lieblings-Liebesgeschichte in Manga Form knnte man sagen. Jeder dem der Anime Film gefiel und der melancholische, ruhig erzhlte Liebesgeschichten

mag wird diesen Manga ins Herz schlieen.1 von 1 Kunden fanden die folgende Rezension hilfreich. My favorite story!Von WinifredI will say that this is the type of story that may move you or it may not, but there will be a point at which you will connect with it. My words cannot explain the raw emotion that exudes this book. I am glad I watched the anime and purchased this. It is really a beautiful love story. I really love it.

KurzbeschreibungLove can move at the speed of terminal velocity, but as award-winning director Makoto Shinkai reveals in his latest comic, it can only be shared and embraced by those who refuse to see it stop. Takaki Tohno quickly befriends Akari Shinohara when she transfers to his school. They grow closer to each other due to similar interests and attitudes; for instance, they both prefer to stay inside during recess due to their constitutions. As a result, they form a strong bond. Upon ending their school year, Akari moves to Tochigi, due to her parents jobs. The two keep in contact by writing letters, but eventually begin to drift apart.PressestimmenPraise for the animated film by Makoto Shinkai: [Makoto] Shinkai has been hailed as the next Hayao Miyazaki, and his dreamy mindscapes often equal or surpass the anime maestro in breadth of detail and depth of emotion." - Ronnie Scheib, Variety"In 5 Centimeters [Shinkai's] imagination may not leap to Hayao Miyazaki's strange and wonderful heights, but he is better (blasphemy!) at piercing the veil of the everyday to reveal a poignant, evanescent beauty most of us notice only in rare moments...Is he really the "new Miyazaki?" He won't become one by imitating the master, but at 34 he is the anime world's bright new hope. That and a brilliant minor gem like "5 Centimeters per Second" are enough, for now." - Japan TimesKurzbeschreibungLove can move at the speed of terminal velocity, but as award-winning director Makoto Shinkai reveals in his latest comic, it can only be shared and embraced by those who refuse to see it stop.
