Magicking a happy-ever-after Von Helen Hancox  
The problem with this book is that I didn't like the heroine, Chloe Nichols. She was OK in her own way, had some friends who liked her, was a good boss to her one staff member in the magic shop that she ran, but unfortunately she seemed rather lacking in personal morality in terms of using her new-found magic. Chloe doesn't seem to see much wrong with using magic to influence others around her - to encourage a man to propose to her, for example; and that's only the beginning. What if the man to whom she is now engaged isn't actually her intended man - and what if she bumps into that man a day later? Well, as Chloe seems very happy to do what suits her, that doesn't seem to be too much of a problem. Break off with Fianc and start a fling with new man. Of course there's more to the story than that, and Chloe does come to a realisation in due course that her behaviour is wrong (although she appears to realise this for selfish reasons too - because she will never know if the man loves her for herself or because she's enchanted him to); Chloe also tries to help a young woman who needs her assistance, even if this involves snooping around in her boyfriend's home and into a room that he keeps private. Once again, Chloe irritated me with her apparent blithe disregard of good behaviour, which outweighed the positives about her. There were other side-characters in this book which I felt weren't ever fully developed. In fact, the scenes with Verda and Alice and the others were pretty dull. Still the book wasn't boring but I did find myself struggling to sympathise with Chloe because of her behaviour and the hero always felt rather distant and indistinct. ber den Autor und weitere Mitwirkende Tracy Madison lives in northwestern Ohio with her husband, four children, one bear-size dog, one loving-but-paranoid pooch and a couple of snobby cats. Her house is often hectic, noisy and filled to the brim with laugh-out-loud moments. Many of these incidents fire up her imagination to create the interesting, realistic and intrinsically funny characters that live in her stories. Tracy loves to hear from readers.
