and Chet - Getting Better Every Book! Von Miki101. Micha What would Bernie Little do, being only some simple Private Investigator, without his best friend and associate in affairs, with the nice nickname Chet?" Who is that Chet?" Chet is a member of "the Nation within the Nation", how he likes to call it... "And will that Chet-guy deliver some further explanation on this Nation-in-nation-thing?" You may ask. Oh yes, he's able to do it, but You will have some difficulty to understand him. Why that??? That's very simple - because... Chet is a DOG. And it's him the true reporter of all the written-down adventures, 4 until today, having the Bernie Little Investigation Group as protagonists. Chet was a so well trained K-9 dog, best leaper of his class, certificate yet prepared, a more than safe job with the gov'nment, but then there was that curious "incident". He doesn't like to talk about it, we will only learn bit by bit that there was a cat involved and some blood, maybe, too... That was the end of his K-9 career before it had begun. But then he met Bernie, ex-special forces, divorced, one boy-child called Charlie, a Private Investigator with absolutely NO talent to take the very Best from his clients - their money. And there along comes Suzie, the Rapid Reporter, yet by Chet The Jet identified as the the perfect "female" for his (until now) Lonesome Loner who is his Bernie-Boss. So "Our Hero on Two Legs" needs urgently and almost always the help from his Best Friend, Chet. And Chet is always more that eager to lend him a helping paw... In this fifth book of the series Bernie and Chet are hired by the Mayor himself - to babysit the spoiled and notoriously bad behaving movie star Thad Perry. Who maybe would be a better and friendlier person, if... if he wouldn't have some ancient demons which are hunting him permanently. And which are deeply rooted in the Valley, where he now has to return to shoot a big-budget Western in the classic tradition. Bernie takes the job - the money is more than welcome. And he can distract himself from the fact that his long-time friend and lover Suzie has gone - to Washington, accepting an offer she can not decline (no reporter worth his or her salt would have!). But soon Suzie will have to return - and it will not be a happy occasion. And when corpses continue to piling up higher, it's time for our couple of heroes to dig into the past - and that's something some people will absolutely try to obstruct... however high the costs may be! But Chet The Jet saves the day - and all the others, too. And Bernie's greatest concern will be: HOW to prevent his son's imminent career as a MOVIE STAR! A mystery, a real thriller - blood is shed, a hunt is on, and yet, is is full of fun, especially when Chet tries to understand the human beings and their speech and actions. A very good read, and in September there will be N 6 The Sound and the Furry: A Chet and Bernie Mystery (Chet and Bernie Mysteries) - absolutely not to miss by the friends of those of "the nation inside the nation"!

Kurzbeschreibung Everyones favorite detective team returns in a new adventure as canine narrator Chet and his human partner P.I. Bernie Little find that Hollywood has gone to the dogs. Hoping to bring some Tinseltown money to the Valley, the mayor lures a movie studio to town to shoot their next production, a big-budget Western in the classic tradition. The star is none other than ruggedly handsome and notoriously badly behaved Thad Perry. When the mayor decides that someone needs to keep an eye on Thad so that he doesn't get into too much trouble, Bernie and Chet are handpicked for the job. The money is good but something smells fishy, and what should have been a simple matter of babysitting soon gets more complicated especially when they discover that Thad has a mysterious connection to the Valley that nobody wants to talk about. What kind of secret could Thad have left behind when he went to Hollywood to seek fame and fortune? The only people who might know the answer have a bad habit of turning up dead before they can talk. As Bernies relationship with his longtime girlfriend Suzie goes long-distance, and Chets late-night assignations appear to have resulted in an unexpected dividend, its all our two sleuths can do to keep Thad and his motley entourage of yes-men, handlers, and hangers-on in their sights. Worst of all, Thad is a self-proclaimed cat person, and his feline friend Brando has taken an instant dislike to Chet. Like the winning books before it, this fifth book in the series combines a top-notch mystery with genuine humor and a perceptive take on the relationship between human and dog that will stay with you long after the case is solved. Pressestimmen Praise for A Fistful of Collars Between Chets insightful and humorous takes on human events, the fast-paced plot, and the wealth of fascinating secondary characters, this is a fine entry in a not-to-be-missed series." (Booklist) "Amusing, intelligent and exciting... A fun romp through a genre that's been around for decades but in the right hands (or paws) still has the power to entertain us." (Cesar's Way) "Once again, Quinn effectively uses a dog narrator while avoiding the sentimentality that marks many animal-centered cozies." --Publishers Weekly You would think that by the fifth series title, Quinn might have run out of ideas and quips she hasn't.
