Von Filerimos I downloaded this book as a freebie and was surprised how much I enjoyed reading it. The story is set in Western Australia in 1910. Pansy, an English governess, arrived there after answering an job advertisement. At first she has her prejudice about this dusty and dry land, with spiders and snakes everywhere. Even her employer Rex seems to be a very hard man whose daughter is just second best for him; just because she's a girl. What worsened the situation for Pansy is her awareness of Rex's masculinity. She is, almost at first sight, very attracted to him. Vice versa Rex is shocked how much resemblance Pansy has to his deceased wife. And in between there is a lonely daughter who's hungry for love. The slow approach of these three and the cut down of their protective shields was nice to read.

Kurzbeschreibung When Pansy Summers arrives in outback Western Australia in 1910 after answering an advertisement for an English governess, she finds a barren landscape, harsh and unforgiving. She is angered by her employers cold and distant attitude towards his daughter, yet wonders what terrible secret lies behind the enigmatic Rex Falklands tormented stare. Gradually, Pansy delights in the beauty of the bush, seen through the eyes of her young charge, while Beacon Hills and Falkland himself irrevocably capture her heart. As fire and famine threaten their existence, will Pansy be able to save the Falkland ancestral home or will its master pursue his own course as its only hope?
