Von John Inman : A Hard Winter Rain (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Hard Winter Rain (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Wow - solid thriller but refreshingly a bit different from the mainstreamVon SunneWow - a book, I mean, a book that actually is well written with a thrilling plot! And humor! An evil madman...okay..maybe I shouldn't be so happy about that ;) A cute couple - not 100% stereotype! Funny and intelligent cops!You get it - I liiiiked it a lot.First things first: This is not a m/m romance. This is a thriller first. You get a lot of insight in the mad guys head, actually the book starts with

him and - expecting a m/m love story - at first I had a bit problems because I felt detached...but really, do I want to feel a connection to a killer? No...so everything is fine in my world. Back to the thriller. It is a book that doesn't need to hide in comparison to books like written by Karen Rose or Henning Mankell. It doesn't have the grey and hopeless feeling of the Scandinavian thrillers not the nearly stereotypical alpha types in American thrillers. It is refreshingly different and yet the same class in my opinion. Let's start with the bad guy - wow - the author did a good job. We get to know him really well and despite I guessed who he is about a third into the book (I'm good at that :D) - the way his mind worked, how he just by ignorance made his way...uff....Then - the m/m couple, hustler and "middle-aged" hairdresser. My, my, can we get a cuter one? No seriously not and what made it special was, that despite being really a cute couple, John Inman made me believe it, believe the attraction, the character of both. Only complaint on my side was the sudden and early declaration of love. But I liked Harry's hidden skills for example and how Sean had been drawn to the goodness in Harry from the beginning. But my favorite pairing are actually the straight guys. Those cops were just adorable!!! They are funny - I loved their banter and I'm a sucker for humor in books - and intelligent. They were on the right track, they did make the right conclusions and still they were a step behind till the end. I wouldn't mind reading more books with them. Additionally the author took his time to add little stories of sidecharacters - which made the book really colorful. Well, he nearly broke my heart with the last victim. I knew he was going to be killed, that he was going to be link for the cops...but still...sigh, couldn't this one just be saved last minute? Nobody said reading a thriller is always happy happy...I still enjoyed this one immensely.

Kurzbeschreibung Sean Andros is tired of hustling, tired of trying to make the rent, tired of running from his past. But the past can chase you down in a heartbeat. Suddenly Sean's living a nightmare again and casualties are stacking up around him. The only person he can trust is Harry, a man twice his age and the closest thing to a friend Sean has ever known. Harry Connors has loved Sean since their first night together, and now, with danger hard at their heels, Harry will do anything to protect the tough, strangely vulnerable young man who begs him for help. Harry had better be serious about offering protection, though, because the demons threatening Sean's life are no joke. Only a hard winter rain will wash away the evil that drove Sean Andros to the streets, and Sean and Harry are going to have to be strong if they plan on sticking around for the sun.
