Kurzbeschreibung Becky Jordan has had it with relationships. From now on her time and dedication wont be lavished on her latest Mr. Wrongor, worse, Mr. Hell-No! just the dream travel job which has unexpectedly leapt into her lap. Finally, life is looking great. Unfortunately, not as great as her sizzling-hot, take-charge new boss. Matt Frobisher is everything she doesn't want him to be, but if anyone thinks she'll risk her career on a workplace fling they can think again. No amount of Superman behaviour from him will make her roll over and play Lois. At least, that's what her head says. Her heart, however, doesn't do logical. In desperation she finds herself a Mr. Distraction, one with no strings and plenty of appeal. But Mr. Distraction also comes with unforeseen complications. Kryptonite complications, like Beckys sister. And when she shows up theres only one sure thing: not even Superman can prevent the Disaster Fest thats about to blow Beckys life apart. Warning: contains one guy determined to win the girl, one girl determined not to be won, and plenty of heat in the middle. (This book is intended for readers aged 18+.)

ber den Autor und weitere Mitwirkende Hi there. I live in Christchurch, New Zealand (aka QuakeZone) with my partner, two children, and a snooty cat who thinks we're all her slaves. My days are spent running around after kids or doing one of my 'real' jobs, so my writing generally happens in the dead of night. (Morning? Ha! I'm a third-generation night owl. Enough said.) I love chocolate, hate being cold, and am ever fascinated by the possibility of time travel. Obviously, my ideal experience would be to wake up on a tropical island eighty years into the future, with an endless supply of chocolate on hand. There's nothing I love more than a good chat (except perhaps a good chat and chocolate--see the theme here?). So don't be shy--get in touch!
