Surprisingly GoodVon RotemWhen I got this book from the free list in I didn't think it would be this good. It might not turn into a classic, but I still can't wait till a sequel is published.The main thing that bothered me, as a computer scientist, is that many computer-related things were complete nonsense (come to think of it, this sounds a bit ironic

talking about a sci-fi book...). But if you are not into computers then it shouldn't bother you. If you are looking for a fun read that is engaging, then this book is a good option. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Fesselnde Geschichte Von -Kunde Ich habe die Geschichte praktisch in einem Rutsch durchgelesen. Ziel erreicht, gute Unterhaltung. Wenn noch das Wort "hangar" richtig geschrieben wre und nicht stndig von Kleiderbgel (hanger) die Rede wre... Okay, der Hauptfigur kommt viel lter 'rber als sie tatschlich ist, aber gefesselt hat mich die Geschichte trotzdem. Wenn die angekndigte Fortsetzung schon da wre, hte ich sie gleich gekauft.

Kurzbeschreibung A five-thousand-meter starship; a dying civilization; an ancient evil The broadcast interview of a young computer prodigy attracts the attention of aliens aboard an interstellar trading ship. The kidnapping of Tommy (and his cat) begins an adventure among the stars: a coming of age story entangled with computers, and faster-than-light travel. On board the starship, Tommy meets a crew of humans, descended from peasants, priests, and soldiers taken from Earth a thousand years before, slaves to the seldom-seen aliens, the Nesu, inhabiting the upper third of the ship. Tommy is expected to replace the ancient and failing computers on the ship with computers taken from Earth, beginning with the long-dead missile controller, without which the ship is defenseless. But the Nesu are themselves refugees from another alien civilization that, fifteen hundred years before, destroyed the Nesu home world and now block all scientific advancement in the local arm of the galaxy. A high-tech, science fiction adventure.
