Von Paul Fussell : Abroad: British Literary Traveling between the Wars before purchasing it in order to gage whether or not it would be worth my time, and all praised Abroad: British Literary Traveling between the Wars:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Before travel became tourism...Von Mark MillerTime was when travel was as memorable an adventure as a stunning love affair, a divorce, a personal catastrophe. That time was between the wars -- the Great War and WW2 -- and no group of observers was better positioned to write of it than the great British travel commentators. You will think differently

about the activity and meaning of travel after you read this captivating, if occasionally slow-going book by one of the finest observers of the 20th century at work today. And not least of all ABROAD takes you back into the world of T. E. Lawrence's time, when ships were the only way to cross the seas.0 von 0 Kunden fanden die folgende Rezension hilfreich. Ein Lesevergnügen Von Kunde Ein interessantes Thema, umfassend aber mit leichter Feder beleuchtet. Man bekommt sozusagen einen Blick hinter die Kulissen von bekannten Reisebüchern.

Kurzbeschreibung A book about the meaning of travel, about how important the topic has been for writers for two and a half centuries, and about how excellent the literature of travel happened to be in England and America in the 1920s and 30s. Pressestimmen "[A] witty book that bristles with outrageous assertions....Fussell obviously enjoys the act of writing about his reading, which is what makes the book so lively."-The Tribune (London) "An absolutely dazzling continent of sociology, literary criticism, cultural history, biography and amusing anecdote, so borderlessly fused that we hardly realize what great intellectual distances we are covering."The New York Times "[Fussell's] book is a fitting substitute for the real thing; it is a journey in time and space, offering the serendipitous pleasure of the open road."-Time "What Fussell has done-brightly, wittily, with bravura display of critical methods-is to reclaim for travel writing a large measure of literary respectability."-Newsweek "Abroad is an exemplary piece of criticism. It is immensely readable. It bristles with ideas. It disinters a regal lost masterpiece from the library stacks. It admits a whole area of writing-at last!-to its proper place in literary history."-The New York Times Book "This is the most interesting and insightful book that I have read on travel writing, and my students seem to agree."-Jonathan Smith, Texas A M University Kurzbeschreibung A book about the meaning of travel, about how important the topic has been for writers for two and a half centuries, and about how excellent the literature of travel happened to be in England and America in the 1920s and 30s.
