a good book. Von Liv This sequel is more or less about Rachel's feelings and if she can or can't live without Landon. She really struggled with the conflicts of her feelings. She loves Landon but is scared that he would leave her when she wants him to commit to her or when she would tell him that she loves him. I understood her jealousy of his ex though I don't know if I would just run away, I would for sure confront him first. If he is having dinner even for business with his ex, I would not be really good with this. Ava his ex is all over him and it doesn't help that she looks like a supermodel. Rachel has to deal with a lot of stuff in this book. Poor woman. It would be a lie to say that I didn't enjoy this book but it lacked on some things that I can't point my finger on. It is a little repetitive because Rachel sends Landon away all the time and he is coming back to her like a boomerang. It is still kinda sweet though. Even though it was a little on the slow read, it felt like real life and that's never boring. Because in real life you don't always get your HEA and even if you get one, it doesn't happen in a day. So I was torn between liking the story because it stayed on the true side and wanting to throw the book against the wall and scream at Rachel because she didn't want to confess her feelings to Landon. As you see, there is no lack of emotions in this book =P All in all this was a good read and I really enjoyed the writing as well as in the first book. -- I received an ARC of this book from the author through the Fifty Shades Support Group on Goodreads in exchange for an honest review. --

Kurzbeschreibung Rachel and Landon's story continues in this spellbinding sequel to *Drawn to You*. It was supposed to be just one week, just sex, no commitment, but somewhere along that overwhelmingly sexy ride, Rachel fell in love with Landon. There's just one problem, he doesn't do commitment. As far as Landon knows, they have a good thing going, and he's not willing to let that go. So Rachel can either tell him how she feels and watch him walk away, or keep it to herself and continue to drown in her feelings for him. It hurts to be with him, but being without him hurts more. How do you make a choice about love, when there's really no choice at all? *Addicted To You* is the second part of a three-part contemporary romance series which contains sexual situations not suitable for ages 18 and under. The final part of the series, *Lost In You*, is available now.

ber den Autor und weitere Mitwirkende Serena Grey has always loved to read. These days she also writes, because the stories in her head won't leave her in peace otherwise. Even though she loves all kinds of fiction, she has a soft spot for love and romance, and that flush of pleasure that can only be found at the end of a beautiful love story. When she's not reading and writing, she enjoys cocktails, coffee, numerous TV shows, and has never gotten over her crush on LdC. If she had to choose between a good book and ice-cream, she'd take both and make a run for it.
