I recommend this book to everyone!Von Heikel've been a lucky winner of an ARC book by Sunniva Dee, I promised an honest review...Adrenaline was my first book by Sunniva Dee and it won't be my last!This book was a roller coaster, I

loved the banter between Inga and Cameron. It was sexy with lots of adrenaline, angst and anger (from my side about how they behaved)It took me 2 pages to get into Sunnivas writing and the awesome story.I love books with a high amount of humor and love.I recommend this book to everyone!

As an author, she pens flawed characters and seeks the flip side where the soul hides. Once there, Sunniva wants to be pulled out of her comfort zone by stories taking on a life of their own. Sunniva has written paranormal and young adult. She's done contemporary romance verging on erotica and dabbled in supernatural mystery. But her heart is rooted in new adult of the true kind: young adult all grown up, with conflicts and passions that are familiar to college-aged readers and all who remember those days like they happened last night.
