set quickly and there was action right from the start. I'm not normally a fan of sci-fi books, but this is so well written involving special forces, covert government missions and, of all things, Zombies that I was drawn into the storyline straight away. I even found the Zombies believable, which is a testament to the writing of L.T. Ryan. This book is all action and I thoroughly recommend it. 0 von 0 Kunden fanden die folgende Rezension hilfreich. just one star... go home my friend! WTF? Von Thorsten Hunsicker The guy giving just a one star review clearly did NOT read the full book.. yes, it's a Navy SEALs novel, they fly in to handle s\*\*\* hitting the fan in an African underground lab... and YES again, it's got Zombies.. helluva read, I dare say! Enjoyed every last drop of digital ink the author wrote... so go home one star review and read that book again, because it rocks! 0 von 1 Kunden fanden die folgende Rezension hilfreich. Affliction Z: Patient Zero Von Jennifer90A stereotypical zombie novel with no new twists or turns. The outcome is predictable, the plot old news and the characters boring as hell. The real horror of this book was the writing style, but not the story.
