Von April Hill : Against the Wind (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Against the Wind (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Historistische Seefahrerromantik mit eingeflochtenem spankingVon WombatDie Szenerie ist gut
gewhlt:Historistischer Ansatz, Seefahrerszenen auf einem Schiff, spanking in verschiedenen Variationen auf einem
alten Segelschiff,dazu interessante Caraktere und Situationsbeschreibungen. Gelungene Kombination aus historischem

Roman und dem Thema spanking. Voll empfehlenswert für spanking Interessierte.

Kurzbeschreibung The thrilling (and almost absolutely true) story of Emily Fowler, a beautiful and spirited young woman from Nantucket, who should have been (but, alas, never was) soundly spanked when young. Our naughty heroine does manage to get herself into a number of scrapes during her course of her breathtaking adventure. She leaps from a window to escape her wedding day, stows away and sails the high seas on a tall ship, risks her life and is grievously injured, is thrown rudely into a harbor, is kidnapped by plundering pirates, is brutally manhandled, nearly ravished and almost murdered but luckily is heroically rescued from her unspeakable fate at the last possible second. Most importantly of all, she falls in love with a brave and handsome sea captain, and is deliciously deflowered and made love to by same. Before her ordeal is peacefully concluded (lest the reader be sorely disappointed) our deserving young heroine's beguiling bare buttocks are frequently and soundly spanked! (as previously promised)
