Von David Ignatius : Agents of Innocence (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Agents of Innocence (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A fantastic novel about CIA operations in the Middle EastVon Ein KundeAgents Of Innocence is guaranteed to be a page turner. It is a wonderful spy story. Being from Lebanon myself, I can tell that the author not only has spent a great deal of time living in the Middle East, but he shares a bond with its culture. I have read one other David Ignatius novel, A Firing Offence, and am reading SIRO now, and became fascinated by his writing style. It is very descriptive and elegant and it prepares the reader for the plot by charging the reader with emotions for and against all the characters of the story. Agents Of Innocence is a fantastic novel set in Lebanon describing very vividly the political atmosphere of the Middle East starting in the 60's and culminating with the explosion that destroyed the American

Embassy in Beirut, as well as the changes in the CIA that lead to that. The events of the novel are from the point of view of a CIA case officer who loved the Middle East, understood its people and spoke their language fluently. He managed to penetrate the most dominant branch of the Palestinian resistance, and established relationships where none could ever have been conceived. Enjoy it!

I have an extensive background in security and intelligence and there is no finer fiction available about the CIA and the Middle East during the 1970's-1980's. It is considered to be the most accurate and realistic book of its kind, and it has maintained its ranking on the mandatory reading list of those in the field for over two decades. The fact that it is also a truly outstanding read goes without saying!

Von Ein Kunde
Having read A Firing Offense - and liked it very much - I could hardly believe that Agents of Innocence was written by the same author. Not that it wasn't, but AOI is SO good, whereas AFO was just plain good. It'd been a long time since I'd read such a captivating novel of espionage.

Kurzbeschreibung
Agents of Innocence is the book that established David Ignatius's reputation as a master of the novel of contemporary espionage. Into the treacherous world of shifting alliances and arcane subterfuge comes idealistic CIA man Tom Rogers. Ordered to penetrate the PLO and recruit a high-level operative, he soon learns the heavy price of innocence in a time and place that has no use for it.
From Library Journal
The factional strife in Lebanon feeds on rumor, deliberate lies, and half-truths, and spawns mercenaries and agents of every ideological stripe. Most share a harsh morality that allows terrorism to advance. A very few others are committed to relationships built on trust, honesty, and a sense of mutual responsibility. One such is Tom Rogers, a CIA agent who penetrates a prime Palestinian unit and makes a secret agreement with a young deputy chief of Fatah intelligence. This first novel is a suspenseful account of the excruciating ambiguity of the undertaking. Ignatius, a former Middle East correspondent for the Wall Street Journal, writes with a fatalistic affection for his subject and deep understanding of its complexity. As a storyteller, Ignatius deploys drama, pace, and character to make this a spy novel of formidable power. Barbara Conaty, Library of Congress
