Wonderful...Von Anaisthis is one of the best books I read and probably will read this year.I did not expect much, cause I got it for free, but I was blown away.the characters have such depths. it's really easy to sympathise with them.I

really liked the jumps between the past and now. it helped me understand everything in a whole new context. I would recommend it to everybody who is open to something different. some parts are quite shocking. there are some very serious topics in the book (like sexual abuse of minors). I think the author found a good way to tell these moments in a way, that helped me to understand what a person in such a situation might be going through and how it affects the family and friendships of the victim, without becoming sappy or patronizing. it stayed real and I found that enlightening.

Kurzbeschreibung An erotic and compelling story that looks at the thrills and perils of adolescent sex and adult promiscuity from several intimate perspectives. Combining humor and poignant prose with passionate, graphically depicted scenes from the bedroom, CUTE touches on subjects ranging from childhood sexual abuse to adolescent experimentation, and the resulting psychosexual trauma that shapes one mans future. The novel details the sexual maturation of Tim Jacoby, from preschool through adulthood, as he falls from a silver-spoon childhood to the dregs of alcoholism and hustling. Left in a vegetative state from an attack outside a neighborhood bar, Tim begins a slow, arduous recovery, aided by his nurse, Janie, whose ingenious method of using sexual enticement to draw him back from the brink of death may lead to his ultimate recovery and moral redemption. As Tim relives his past during convalescence, we watch his life unfold; a life in which he is plagued from birth by the seductive power of his inordinate cuteness. Along the way, he finds himself constantly pursued by an endearing cast of female characters, who not only introduce him to the tantalizing world of erotic lovemaking, but set the stage for a destructive lifestyle of wanton sexual indiscretion. CUTE is a compellingly realistic story that kept me up all night turning pages. Chapters, like Groin Up had me nearly rolling on the floor with laughter, while others elicited tears with their sad tales of juvenile sexual abuse and the painfully traumatic consequences of marital infidelity. This book delivers a profound emotional whack in the heart; an impact unlike any novel I have ever read. An incredible reading experience!- Hack Taylor: Book Editor, bleepthem.com
