Typical Dale Brown - Fast Action, Good BookVon 500grandThe story follows up NERVE CENTRE and it is useful to have read other Dreamland Series Books before. With the knowledge of all the 'players', it is nice reading, full of suspense and this time not too far off technical and political reality. I recommend this one along with the other DREAMLAND series novels for those of you that also like Coonts or Clancy.

KurzbeschreibungThe weapon is codenamed "Razor"the brainchild of the brilliant minds at Dreamland a mobile chemical laser system with a range of 600 kilometers capable of downing anything that flies. The destruction of an American aircraft over northern Iraq suggests the inexplicable and unthinkable: a vengeful foe now possesses the lethal technology. It is fear that draws a retired warrior back to the battlefield, and sends Dreamland's best pilots to the skies to determine what the enemy has and to help take it away from him. But politics threatens to crush a covert engagement that must be won in the air and on the ground, unleashing a devastating rain of friendly fire that could ultimately annihilate a nation's champions ... and perhaps Dreamland itself.Pressestimmen`Clancy's got serious company.'New York Daily News`When a former pilot turns his hand to thrillers you can take their authenticity for granted.
