of a pair Von Rin Hayashi In issue four of the series we read about Gregori and his partner Savannah. The tour is over and after the five years he has given her, he comes to claim her. So far, so good. Savannah is the first female Carpathian born and raised after several hundred years. Her mother, Raven, had been brought over to the Carpathian side only a quarter of a century before Savannah's birth and thus she obviously - at least according to the book - didn't have enough time to understand Carpathian life. So, Savannah is raised as a human girl - which ultimately leads to some problems with her mate as Gregori is about 1000 years old and hasn't interacted much with humans. This issue is the first issue not to jump more than 20 years into the future for the next issue, which is quite nice. We also get not many new characters. Savannah hasn't yet been mentioned much, but at least she was mentioned before. Gregori was a part of every issue until this one. Really new is the character of Gary Jansen, which will return in future issues. ~*~ In chapter eight, we read that Aidan Savage, main character of issue three, had established his home in the United States half a century before Savannah's birth. Later we get to know that his brother, Julian, had been to the US for 200 years or so. Why didn't the twins go together? As the US is quite a big country: Are there other Carpathians or are these two the only ones? That'd be ridiculous seeing that the Carpathian Mountains are about 1/5 th the size of the US... So a few Carpathians should reside there to keep the vampires at bay. Also it is not explained why Aidan was back in the Carpathian Mountains in issue one - so roughly 25 years before Savannah's birth. In conclusion, 25 years after he moved to the US. In chapter sixteen Gary, Savannah and Gregori are going out to enjoy some music. At least that is what the reader has to assume with the lines we are given. Yet suddenly Gregori lifts Savannah and carries her "up to one of the bedrooms". Where is Gary? Where have they gone to? What happened???

Once a Carpathian male "turns" he is a danger to humans and Carpathians alike, a threat that must be eliminated. Gregori's only hope from such a fate is a young 23 yr. old named Savannah, his lifemate. She is the daughter of the Prince of their people Mikhail and his lifemate Raven (their story is told in DARK PRINCE). Independent and carefree, Savannah at first dreads her fate as lifemate to such a very possessive, demanding and domineering male who happens to be one of the most dangerous Carpathians to ever exist. She fears his power especially after he loses control and almost kills her. She brings him back from the darkness just in time and becomes his beacon of light. In doing this, Savannah gets to know her lifemate and learns to understand him. She sees past the hunter, past the image of the Dark One, and sees a man of unwavering honor and loyalty who is willing to put her life and the lives of their people before his own without hesitation. Once these two lifemates are joined to one another completely, the chemistry between them is electrifying. I never melted so much in my life! It is this chemistry that adds humor, passion-OH, MY GOD!- and romance to this compelling story. Add a menacing Vampire and a society of psychotic vampire hunters and you've got yourself a fantastic page-turner that will enthrall you until the very end. DARK MAGIC is the first of the DARK series books that I have ever read and I absolutely loved it. I was so impressed by the Carpathian males and their search for their lifemates that I purchased all of the previous books. I can't wait to start reading them. I recommend this book wholeheartedly knowing any lover of romance will love it. Read it and find out for yourself. It's definitely a keeper. Trust me!

LUCIANO5 von 5 Kunden fanden die folgende Rezension hilfreich. GREGORI'S STORY IS OUTSTANDING! Von Carolyn Christy I am an absolute fanatic over that bad boy Gregori. I have BURNED for this book since April. DARK MAGIC is the fourth book in the Carpathian series written by top notch author, Christine Feehan. For nearly a thousand years Gregori, the relentless hunter of the undead and the most powerful of the Carpathians has struggled with the darkness. He is teetering on the brink of madness. The beast within him strong. He can wait no longer and seeks out his lifemate. Savannah Dubrinsky, daughter of the Prince of the Carpathians (Mikhail Raven) is a world famous magician. More than anything she desires her own independence and does not want to be a lifemate to anyone. Especially to one as powerful and menacing as Gregori. She runs from him. From his dark sensuality and the intensity of her feelings for him. Years before, he came to claim her as his lifemate. Right away she notices how very different Gregori is from the other young men. He is much more powerful and very, very frightening. As his cold silver eyes glided over her, she feels an awakening within her body as if something wild within her longs for him. He speaks to her mind that she BELONGS to him and no one else. With a kiss that scourches her soul, her fate for all time is sealed. Savannah's life changes in that very instant. She fears not only the total control Gregori would have over her but also the intensity of her feelings. In desperation, she pleads with him to give her her freedom. Very reluctantly, he agrees giving her five years. But in the waiting there is much danger. Now the vow he has made to her is at an end and so is his control. He is very close to turning and is now unable to seek the dawn to kill himself. He knows how incredibly powerful he is. Knows that there is no one who could defeat him. Not Mikhail or even Aidan could hope to destroy him. He knows that if he should turn vampire, he would tear the world apart. Gregori can no longer trust himself and seizes Savannah. But it is too late. Having her presence near him sends him toppling over the edge. The struggle between man and beast is AWESOME and totally believable in one who has struggled with insurmountable darkness for endless centuries. Savannah merges her mind with his and "feels" the suffering he has endured for her. For the first time, she understands Gregori's plight. The five years of freedom he had given her had been so very horrible for him to endure. She is consumed with guilt for it is her fear and young age that have brought so powerful a man to such a pitiful, horrible

state. She reaches out to him despite her fear, offering herself to him. That acceptance slowly allows the man to gain control over the beast. DARK MAGIC is brimming with dark emotions, incredible sensuality and violence. All of us who have read the very first book in the series knows that Gregori is a hard man. He has suffered more than any other Carpathian for he is called upon to dispense justice and all of that killing has taken its toll. His own people fear him and the immense power he possesses. Knowing this, he willingly isolates himself even though he is aching for acceptance. He believes his soul is forever lost and in a desperate bid for salvation, he tampers with nature. He agonizes over Savannah one day discovering how he had manipulated their chemistry many years before. Agonizes that there very well might be her "true" lifemate waiting for her. Agonizes that her heart will never be his! DARK MAGIC is definitely a KEEPER. Christine, girl, you did an OUTSTANDING job with my bad boy's story. THANK YOU! Carolyn
