Dark MurderVon miss.mesmerizedA woman murdered and her eyes poked out, another woman disappeared without a trace. Detective Stephen Greco has just started his new job and apart from the weird team of very singular individuals, he immediately has a complex case to solve. What he does not need is his ex wife handing over the 5-year-old daughter to take care of in this situation. Several clues hint at different motives and suspects; the pressure on the team quickly rises especially when one of them gets mixed up with the local underworld.Helen H. Durrants protagonist is a very interesting character, neither the superhero nor the addicted and burnt out cop who can solve his case like a lonesome wolf. Adding the personal aspect as a suddenly single parent which also widens his horizon with regard to his team is quite innovative in crime novels. The plot itself is packed with suspense, different lines of action are slowly intertwined thus providing a convincing solution and coherent story. All in all, a novel which is enjoyable to read, a well made mixture of suspense and personal components which make the characters appear real and authentic.
