Von Lisa Henry : Dark Space (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dark Space (English Edition):

Exquisite.Von LenaRibkaWith the Dark Space I hit a jackpot and I hope that it's a good sign for all my future books for this year!Normally I'm a bit greedy with my star's rating, but here I didn't hesitate even a minute.BECAUSE.... I swear by God, I won't start my future reviews for a science fiction book with the sentence "Though I am not a big fan of a science fiction genre...". At least after reading this book I know it's not true. I AM. Period. My first book of Lisa

Henry was Falling Away. I fell in love with her writing. At least after reading this book I know I'm her fan FOREVER. Lisa, you are GREAT. Period. Absolutely fantastic thrilling emotional intense read. Exquisite. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Very well written. Von Sunne Oh wow - oh...okay, so far books written by Lisa Henry had been always a bit more on the edge than others. They aren't always nice and pretty and people aren't always only good or only bad. Consent is sometimes dubious. This one on the other hand comes very close to "normal" ...but only "close", it still has the edge (and - hm - does every Lisa Henry book have a flashback to rape?) but the MCs are actually really clearly defined. That doesn't make them shallow or stereotyp, I don't think it's possible for her. It captivated me, drew me in and I was not one second bored. I think that says enough, especially because it is SciFi and I'm not a huge fan of that. The whole concept of one person being the energy source/heartbeat for another is interesting and well built. Oh - and I want to add that some people labeled it a GFY story. I don't think it is one actually. Bradey has been recruited at the age of 16 and his whole life situation makes me think that his sexuality at this point hadn't even had a chance to come out. Sex was so far one of the last things in his mind. So for me it's not a GFY story. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice Von MoI was expecting a little bit more. For such a great plot the story seemed a bit shallow and on repeat. And there was a bit more sex than expected, but overall it was a nice read and I didn't hate it. So 4 stars, since 3,5 is not an option. But really, I just wish there was a bit more of a story, since the plot is really nice.

Kurzbeschreibung Genre: Science Fiction Space Opera, LGBT Brady Garrett needs to go home. He's a conscripted recruit on Defender Three, one of a network of stations designed to protect the Earth from alien attack. He's also angry, homesick, and afraid. If he doesn't get home he'll lose his family, but there's no way back except in a body bag. Cameron Rushton needs a heartbeat. Four years ago Cam was taken by the Faceless the alien race that almost destroyed Earth. Now he's back, and when the doctors make a mess of getting him out of stasis, Brady becomes his temporary human pacemaker. Except they're sharing more than a heartbeat: they're sharing thoughts, memories, and some very vivid dreams. Not that Brady's got time to worry about his growing attraction to another guy, especially the one guy in the universe who can read his mind. It doesn't mean anything. It's just biochemistry and electrical impulses. It doesn't change the truth: Brady's alone in the universe. Now the Faceless are coming and there's nothing anyone can do. You can't stop your nightmares. Cam says everyone will live, but Cam's probably a traitor and a liar like the military thinks. But that's okay. Guys like Brady don't expect happy endings. Note: This book contains reference to past rape, violence. Kurzbeschreibung Genre: Science Fiction Space Opera, LGBT Brady Garrett needs to go home.
