Von Susan Illene : Darkness Haunts: Book 1 (Sensor Series) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Darkness Haunts: Book 1 (Sensor Series) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen5 von 5 Kunden fanden die folgende Rezension hilfreich. Remarkable first book!Von mountainmamaMelena is a sensor who travels to Alaska to find a friend who has disappeared, and walks into a nest of supernatural beings all intent on preventing Mel from accomplishing her goal. Using her military training and her sensor abilities, she manages to get herself into a situation that will turn her world

upside down as she finds unlikely allies in her quest to save her friend and as her own life hangs in the balance. I met this author on-line a couple years ago, and have listened with interest as she talked about the process of writing her first book. Although paranormal fiction is not my favorite read, I was eager to see how her personality translated into her writing, and found myself captivated by Susans ability to weave a compelling tale. She has drawn on her own military background and love of the genre and successfully created a well-written and entertaining story. Great job, Mistress!

1 von 1 Kunden fanden die folgende Rezension hilfreich. Leseempfehlung! Von Merle Neue Serie mit Handlung in der paranormalen Welt mit den blichen Wesen wie Vampiren, Werwlfen, Elfen, Pixies und Sensoren, das heisst Menschen, welche die Sup's erspren, spannend erzht. Die 26-jhrige Melena Sanders weiss seitdem sie ein Teenager war, dass sie paranormale Wesen von Weitem spren kann. Dummerweise drfen die Paranormalen dies nicht erfahren, da sie alle Sensoren tten. Als ihre Freundin Anija in Kanada vermisst wird, macht Melena sich auf die gefhrliche Suche nach ihr. Und trifft auf eine Mauer des Schweigens. Die Charaktere sind gut aufgebaut und interessant. Die Geschichte ist zwar einfach und ohne grosse berraschungen, doch faszinierend. Auf die Fortsetzungen bin ich sehr gespannt.

Kurzbeschreibung Melena Sanders faced her fair share of danger with insurgents and terrorists when she served in the U.S. Army, but now she is about to go up against a new threat. Her best friend, Aniya, has disappeared while on a trip to Fairbanks, Alaska a supernatural haven. Most humans have no idea darker races lurk amongst them. Mel knows better. If she wants to get her friend back, shes going to have to go in alone but not unarmed. Melena has a few special skills the Army didnt provide, but the odds are still against her. Shes got to come up with a plan fast that doesnt involve her, or her friend, dying. But danger likes to play it rough. A war for power is about to rise in Fairbanks and if she wants to get Aniya back, shes going to have to step right into the middle of it. Word count: 92,000 (approximate)

ber den Autor und weitere Mitwirkende Instead of making the traditional post high school move and attending college, Susan joined the U.S. Army. She spent her eighteenth birthday in the gas chamber...an experience she is sure is best left for criminals. For eleven years she served first as a human resources specialist and later as an Arabic linguist (mostly in Airborne units). Though all her duty assignments were stateside, she did make two deployments to Iraq where her language skills were put to regular use. After leaving the service in 2009, Susan returned to school to study history with a focus on the Middle East. She no longer finds many opportunities to test her fighting abilities in real life, unless her husband is demanding she cook him a real meal, but she's found a new outlet in writing urban fantasy heroines who can.
