Von Sharon Bolton : Dead Scared: Lacey Flint Series, Book 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Dead Scared: Lacey Flint Series, Book 2:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Spannend, es lohnt sich dieses Buch nicht aus der Hand zu legen bevor man es durchgelesen hat, aber...Von BarbaraLacey Flint ermittelt undercover in Cambridge als eine Studentin, die absolut ihrem wahren Character

widerspricht. Statt einer toughen Frau muss sie nun eine unsichere, angstliche Studentin mimen, die Angst hat und die Hilfe einer Psychaterin benötigt. Lacy Flint aka Laura Farrow erlebt das gleiche, das vorher mehrere Studentinnen erlebt haben, deren vermeintliche Selbstmorde oder Versuche auf social networks gepostet wurden. Dr. Evi Oliver ihre Psychachterin ist eine Freundin von Flint's Boss Dana Tulloch, die diese um Hilfe gebeten hat, weil sie von unheimlichen Vorkommnissen in ihrem Haus heimgesucht wird und nun an ihrem Verstand zweifelt. Das tut auch sehr schnell die toughere undercover Ermittlerin an ihrem eigenen Verstand, beide Frauen sind rational veranlagt, aber was sie erleben, droht sie in den Wahnsinn zu treiben. Das Buch liest sich wie eine gothic novel, der Leser ahnt, dass es eine "irdische" Lösung geben muss. Es gibt viele gruselige Begebenheiten, wobei man sich wundert, wie die Autorin diese erklärt ohne in die Esoterik abzudriften, sie schafft es diese nachvollziehbar aufzuklären. Dieses Buch konnte ich nicht aus der Hand legen bis ich wusste, wie es ausgeht, ich war ein ganzes Wochenende in diesen Thriller vertieft. Ich hätte 5 Sterne vergeben, wenn der Schluss nicht so unnötig und beflissig ins Melodramatische abgeglitten wäre. Aber nichts daran, dass der Plot top ist. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Suspense until the end Von Mel This was one of the scariest and most disturbing stories I have read so far. Still, I couldn't put it down. I got sucked into the story from the beginning and it just kept going until the end. Well written with characters I could relate to and a story that just left my mouth wide open at times I will probably keep thinking about this book for a while. And like one of the characters said in the book "Once you find out what's really going on, you'll wish you hadn't." He was right. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Got the right title Von rosebud gb As previous readers have mentioned this is a very unputdownable book. It didn't immediately strike me as so though. I found the first page or two intriguing but sort of wondered if this was one for me but once the story proper started it was an incredible page-turner. I finished reading it in two days, might have been sooner if I had been reading it in my own four walls but I was visiting somebody and sometimes it's rather rude to be reading a book. The plot was in parts a little predictable but it was certainly a gripping read. I'd just like to say this is the first time I've publicly commented on a book but since it was the first book I couldn't tear myself away from for a very long time thought it was worth a mention.

Kurzbeschreibung A series of suicides. Each one a female university student. Each one more horrifying than the last. The police know it cannot be coincidence. But they can't prove it. They need someone to go undercover. A young policewoman, as vulnerable as the others. As unprepared for the nightmare that will greet her. Watch your back, Lacey Flint. . . Pressestimmen "Mesmerising" (The Times) "Treading a fine line between horror and thriller ... seriously rich yet relentlessly disturbing" (Daily Mirror) "S J Bolton is hot property in crime fiction right now." (Stylist Magazine) Pressestimmen Dead Scared Outstanding. . . Bolton never eases up the tension; her tightly coiled plot and heroine on the edge work perfectly in tandem. Publishers Weekly (starred review, Pick of the Week) A number of superlatives could be used to describe Bolton's new work, but a simple wow! will do. After reading the last sentence, I realized I had been holding my breath during the final page or two. Yes, the ending is that gripping. The story's atmosphere is dark and spooky, the main characters are strong yet vulnerable and the plot is refreshingly unpredictable. This stunning psychological thriller is well worth your time. You'll be hooked from page one. RT Book s (4 Stars, Top Pick) Readers will be caught up in the twists and turns that leave them hanging until the final paragraph. Library Journal (starred review) Credible characters, an evocative setting, and a chilling group of clever sadists make the latest from Bolton a satisfying and suspenseful read. Booklist Now You See Me S. J. Bolton is changing the face of crime fiction if you only read one crime novel this year, make it this. Tess Gerritsen Now You See Me is really special: multi-layered and sophisticated, but tough too. Lee Child Bolton provides excruciating tension and much else. Romantics can drool over Jonesbury's turquoise eyes; amateur psychologists can mull Lacey's one-nighters; and Ripperologists can ponder theories of Jack's real identity, one of which helps tie up the plot. Kirkus s (starred review, One of the Best Mysteries of 2011) The twists keep coming, and the truth is not revealed until the final page in Bolton's best novel yet. Library Journal (starred review) Nice atmosphere and good Ripper lore. Booklist Bolton's fourth thriller, a complex psychological puzzler, stands head and shoulders above other such efforts featuring a modern copycat Jack the Ripper. . . Bolton skillfully plays with the reader's expectations. Publishers Weekly (starred review) Excellent. . . Now You See Me is a cerebral thriller that avoids clichés. Each twist and turn is unpredictable as are the fully drawn characters' actions. Oline H. Cogdill, South Florida Sun-Sentinel
