Interesting idea that didn't quite workVon Helen HancoxThe problem with this book was that I never quite got my

teeth into it. The background idea was very interesting - that an abducted CIA operative is being 'reprogrammed' to turn him into a killer, when he escapes. He has suffered so much torture and drug treatment that he's rather unstable and Dr Erin Houston, a psychiatrist, is brought in to help this man, Max Duncan. The problem is that those responsible for Max's torture want him and his companion back and that people Erin thinks are safe may be involved. This book is part road trip, part overseas operation, part romance. The romance is probably a long way down the list in importance and felt rather like an afterthought. I thought there was a great deal of potential in showing how Max overcomes his reprogramming but somehow this never quite worked. There were a number of changes of point of view, sometimes into fairly minor characters, which I felt made the book lose pace. I think this is the middle book in a series of three although everything was explained for the reader starting with this one. However I found myself unable to get seriously gripped by the story and felt the lack of characterisation made it feel rather unrealistic. Originally published for Curled Up With A Good Book Helen Hancox 2010

Kurzbeschreibung Abducted CIA operative Max Duncan returns to his home turf--and into a web of intrigue with the only woman who can help him salvage what's left of his life. . . Think only of the mission--or suffer the consequences. This has been Max Duncan's reality for two years. His thoughts are not his own, and any attempt to exert his will results in excruciating pain. Then his friends stage a rescue he never believed possible. Finally "safe" at home, Max still can't escape the prison of his own mind. . . Dr. Erin Houston, called to California to help Max, would rather be investigating her father's death, a "suicide" she's convinced was actually murder. But when she and Max end up on the run, their time together sparks a connection between the mind-control experiments her father was fighting to stop and Max's suffering. . . Now, as Erin and Max race to expose the truth, someone with a different agenda is closing in--and will stop at nothing to prove them dead wrong. . .
