Fast paced and exciting, never gets boringVon WolfgangI do read a lot of high fantasy books with magic and fighting but this one is by far one of my favourite.What I do like the most about this book is the fast pace. You know in other

fantasy books, it sometimes takes forever until things get rolling, here in this book it is always exciting and there is always something happening. From the first to the last page you never get bored. The different types of magic is generally not something new, but the casts shown by the different magic types are really exciting. Every type of magic does have varies casts to make it interesting. So you can't say, well a fire mage always beats a ice mage. No it always depends on the situation and the casts done by the mages. The overall story does develop during the reading and gets more and more interesting and shows a grand story with a few more books to follow. The only things that's not good, are the typing errors that you will find quite often. This gets a little bit on your nerves but looking at the rest of the book I don't see any reason to give less than 5 stars. I am excited for the second book that I just started to read...0 von 0 Kunden fanden die folgende Rezension hilfreich. Not really good Von Viktor It feels like i was reading the Cycle of Arawn again, just that this book is far worse. Had to write some more words.
