White? Von Ingrid Stephanie Jordan 5 Stars Title: Wild Heat. Book 3 Series: Wilding Pack Wolves Author: Alisa Woods Reviewer: (Ingrid) Stephanie Jordan #Paranormal #WolfShifters #WhiteWolf First we had the River Brothers from the River Pack fighting and mating. Now we have Wilding brothers and sisters and the Wolf Hunter. Wolf Hunter who ever he/she is a human who hates shifters and has been killing wolves. Terra Wilding is a wolf shifter and a known photographer, with her love for Seattle's Sceneries her photography brings out the lights in the dark corners of the city. It was for this reason the Wolf Hunter is targeting her and endangering her whole family. The Mayor says that Terra is a jewel of our city. She must be protected! But by who the police hate shifters so they would probably give her to the Wolf Hunter instead of protecting her. Kaden Grant knows the Seattle Police Department dislikes shifters. But he asked for this assignment, why because it would look good on his perfect record as a police officer besides he didn't trust anyone but himself to keep her safe. Haha a human protecting a wolf. So Officer Grant begged for the job and got it. Now all he has to do is keep her alive. I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung He's a hot cop. She's a wild artist. Making art has never been so dangerously SEXY. Kaden Grant is well aware that the Seattle Police Department is no friend of shifters. But when the mayors favorite artist is targeted by the local hate-fanatic, he orders protective custody for her and Kaden is desperate to land the assignment. Because any other cop would just get the girl killed. If only her wild streak didnt threaten to bring out his long-buried secret Terra Wildings family is being torn apart, and now the Wolf Hunter is targeting her because her of photographs bringing out the light in the dark corners of Seattle. The only way to keep her baby sister Cassie and the other wolves safe is to leave her mountain refuge and hole up in a small house that feels more like a cage. If only the human cop whos guarding her wasnt so hot When Terra slips away to meet up with a secretive art collector, Kadens protective side goes into overdrive. Hes an alphas alpha, and he lights a wild heat in her that threatens to burn them both down. Kaden wants to protect and serve, but can he tame the wildest Wilding before the Wolf Hunter catches up to them both? WILD HEAT is a complete novel with HEA, the third in the Wilding Pack Wolves series. All stories are standalone, but for maximum reader enjoyment, start with the River Pack Wolves trilogy. Contains scorching hot shifters, alpha heroes, and sexy artists. Only readers over 18 should dive into the dangerously hot world of the Wilding Pack Wolves. Kurzbeschreibung He's a hot cop.
