Interesting locale, not so interesting bookVon Ein KundeI purchased this book because I live close to Old Salem (where the book takes place). I read lots of books, but not usually romance novels - thought I'd give this a try, due to the location and since I had met the author, yadda, yadda, yadda.Although the locale and time period were very much of interest to me, the rest of the book was pretty much horrible. I was quite surprised to hear everyone else rave about it. The book is choppy, at best and makes for a very long read.I have read other romance novels since, so I can conclude that it is not the entire genre of romance novels that turns me off, simply this particular book.0 von 0 Kunden fanden die folgende Rezension hilfreich. Wonderful StoryVon Ein KundeI bought Wild Indigo to read on an airplane trip. I thought it was great! I had meant to save some of the book for the return trip, but I got so involved in the plot that I had to finish it in the hotel that night.I guess that everyone has their own tastes and not every book will appeal to every reader. Personally, I've read dozens of historical romances and I think this one really shines. The history was interesting, the hero was appealing and the love scenes were steamy!0 von 0 Kunden fanden die folgende Rezension hilfreich. A great historical romance!Von Ein KundeI'm picky about romances, but I loved Wild Indigo. It's a nice change to read about a hero who's a man's man, but still decent and sensitive, not a jerk. The plot was a page-turner as well!
