Von Tina Waincott : Wild on You: A Justiss Alliance Novel before purchasing it in order to gage whether or not it would be worth my time, and all praised Wild on You: A Justiss Alliance Novel:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great New Series!Von Bianca @BJsBBMY THOUGHTSWILD ON YOU starts a few weeks after Rick Yarbrough's SEAL-Team was forced to quit the Navy, because of a mission gone wrong - not their fault - but somebody had to be blamed.Now they're all back, working for the JUSTISS ALLIANCE(well not yet ALL of them, but they'll all join soon)And Rick aka 'Risk' is about to start his first mission.He can't wait to get back into the game - shooting - bombing - saving the world....But nope - his first mission is Addie Wunder.Her ex-military father hired the Justiss Alliance to keep an eye on his daughter.Addie needs to be watched over because she's almost been run over by a car - and not accidentally! She's made lots of enemies over the years. Addie is an animal activist. Freeing / Saving animals

from travelling zoos and farms where they're not being treated responsibly. After Risk practically salivated over Addie's FB pics, Daddy Wunder tells him that it won't matter if he's attracted to his beautiful daughter - because she's gay. But she's not - she only told her dad she was to stop him from trying to set her up with weird guys. She doesn't have time to date or fall in love. She needs to focus on her animals. But she wasn't expecting Risk to come into her life and change everything "Because your heart is in your beautiful smile and in your voice and in the way you move, and Addie, it's making me crazy. You're making me crazy." But the bad guys are still trying to kill Addie and Risk and his ex-team-partner Saxby and their boss Chase try everything they can to prevent that from happening... WILL THERE BE A CLIFFHANGER? A HAPPY END? I'm not telling you of course - you need to read the book to find out!

I really enjoyed the book. I loved the prequel: Wild Hearts a LOT - because it explains everything you need to know to start the series with Wild On You. So please read it first!!! WILD ON YOU was a really funny, sexy, cute suspensy story! A few things that bothered me a tiny bit... - The suspense parts ...they were not really all that interesting - and especially they were not an advertisement for Navy SEALs!!! I want my SEAL to be the smart super-hero in a book - not someone who loses to the bad guys that often! But in the end Risk made up for all of it. And for non-american readers this whole THANK YOU FOR YOUR SERVICE - thing is just not something I want to read. I only read that in one other book before, and the author even used it up to 10 times - so the 2 times in here is ok - but I really don't need it as an international reader. No offense. Soldiers need to be thanked - but not in a Romantic book! But other than those 2 points I really enjoyed reading the book. Risk is a really cute and funny and sexy and HOT guy and Addie is cute too and the way they work their way to their HEA is really fun to read!!! Now I can't wait to read the 2nd book - because I want to know about how all the guys find their happy ever after I really enjoyed it. GO GET IT!

Kurzbeschreibung The Justiss Alliance is an elite team of heroes out to do right. In Wild on You, one untamable SEAL meets a woman who handles the wildest sort of animals--until she herself becomes the hunted. When Rick Yarbrough, aka Risk, a discharged SEAL with a taste for danger, joins the Justiss Alliance, his first assignment seems like a baby-sitting gig: He must guard an out-of-control general's daughter. Then he meets his charge. Addie Wunder is no baby. She's a dedicated animal-rights activist who isn't above breaking the law if innocent creatures are threatened. But her work has made her a lot of powerful enemies. If she doesn't stop, she may just turn herself into an endangered species. Risk's mission is to keep Addie out of trouble. But as they grow closer, Addie becomes so much more than a job. And the more he has to lose, the more Risk is willing to put his own life on the line--for her cause, her safety, and her sweet-hot embrace. RT Book : Wainscott's Justiss Alliance showcases hot ex-military heroes by giving them a happily ever after, ranking right up there with the Troubleshooters from Suzanne Brockmann or the Black Ops series by Cindy Gerard. Watching Risk alternate between his role as a professional bodyguard focused on the mission and a guy who just really likes a girl is emotional and sexy as hell. Addie has a heart of gold, so she's very surprised at her feelings for Risk, something that ratchets up the sexual tension from hot to scorching because their encounters are about so much more than sex. Discovering who is threatening Addie is a thrilling focal point to the story. This is a must-read for fans of romance with an edge! Includes a special message from the editor, as well as excerpts from other Loveswept titles. Check out Wild Hearts, an e-short that gives you an intimate look at the mission and the men behind

it. **Kurzbeschreibung** The Justiss Alliance is an elite team of heroes out to do right.
