Von Karin Kallmaker : Wild Things (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wild Things (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Not only a good book but you get a history lesson as wellVon carlafi I liked this book but not immediately. The first time I read it I wasn't quite sure what I thought of it. Even as a lapsed Catholic, I found Kallmakier's assessment of the Church a bit unsettling. However, I had to admit that a lot of what she said was true. My one complaint is that Faith's parents were portrayed as caricatures rather than real people and that Syndey's parents could have been given halos. Does that mean rich people are more tolerant than middle class people? I have always been a big fan of Eleanor of Acquataine (I read a

bigography in grade school), so I found the historical information fascinating. I liked the way the romance between Sydney and Faith developed with each having to deal with their demons. I wish Kallmaker had mentioned John XXIII. As unyielding as the church is now, it was worse before John XXIII. He began the use of the vernacular in Church services and he instituted several Ecumenical Councils in order to bring the Church in contact with the Protestant sects which broke away in the 16th and 17th Centuries which unfortunately led to many religious wars. It is unfortunate that later Popes have tried to wipe out John's vision but he still remains one of my heroes. Faith is of an age where John's influence would have been most felt. As I said, I was surprised that he wasn't mentioned. BTW, I loved the character of James. I wish we could have seen more of him but he was a great friend to Faith. The end was a little too much happily ever after but it is in the end, a romance and quite a good one. The characters of Faith and Sydney were fully drawn. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Good, but a little slow to the punch. Von Ein Kunde Wild Things was an interesting story, but it lacked excitement. This was the first of Kallmaker's books I've read, and I found that the story progressed rather slowly and it was easy to lose interest and put the book down. It might be helpful if the relationships among characters were emphasized more than historical research. After all, it is a romance novel. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Well written little romance, I liked it a lot. Von Janet L. Rocco This is a little romance story with a real story! And for anyone who has had difficulty with a strict Catholic upbringing- this puts some things into perspective. I liked the story and characters very much - I read it in 1 night.... thanks Karin and keep writing...

Kurzbeschreibung Scholar and award-winning author Faith Fitzgerald has every reason to be happy: a wealthy, charming man who adores her and a family cheering her marriage prospects. But from the moment she meets Eric's sister, Sydney Van Allen, she knows her safe, predictable feelings for him are a shadow of what could be. Openly lesbian and running for Senator, Sydney can only succeed if she can live down her wild past. That means no liaisons, especially with the achingly alluring woman on her brother's arm who looks at her with confusion--and desire. Fans of this book will not want to miss the novella-length story "Wild Things Are Free" featuring Faith and Sydney in *Frosting on the Cake* or the short story "Losing Faith" in *Frosting on the Cake 2: Second Helpings*.
