Von Sidney Sheldon : Windmills of the Gods before purchasing it in order to gage whether or not it would be worth

my time, and all praised Windmills of the Gods:

Kurzbeschreibung Sidney Sheldon's eighth novel, now available in ebook format. The world is on the brink of mutual destruction between the East and the West and Mary Ashley, beautiful, talented, intelligent, has been chosen to represent America as Ambassador to Romania. Thrust from her comforting, homely life in Kansas, she finds herself lost amongst the political turmoil in a foreign country where she is seen as the enemy and no-one is to be trusted. Then someone starts to threaten Mary and her children. Who can want her to leave so desperately and why? And can Mary decide who she can trust when her life is on the line? Sidney Sheldon is at his gripping best in this thrilling political page-turner. From Library Journal In the world of political intrigue and espionage Sheldon's work is far from Le Carre or even Ludlum. But he can spin a fast-moving tale and give it a few twists. Here an international cabal of politically powerful right- and left-wingers seeks to destroy President Paul Ellison's plan to strengthen relations with Iron Curtain countries. Ellison's program is to start in Romania, and for ambassador he selects Mary Ashley, political science professor, wife, and mother who has seldom been outside Kansas in her 35 years, but whose writing has caught Ellison's eye. Sheldon strains credulity severely along the way, notably in murders masked as accidents, and Ashley's gaffes on the Washington diplomatic scene are glaringly inconsistent with her shrewd negotiating in Bucharest a few months later. But the story speeds along and the epilogue is a chiller. Michele Leber, Fairfax Cty. P.L., Va. Copyright 1987 Reed Business Information, Inc. Pressestimmen Praise for Sidney Sheldon: 'If you want a novel you simply cannot put down, go to Sheldon.' New York Daily News
