Von L.M. Pruitt : Winged (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Winged (English Edition):

Great Series Debut!Von DianeI decided to read this book after reading a favorable review on a paranormal book reviews site, and I was not disappointed. The plot is quite original - the heroin dies and finds herself having to learn how to defeat demons under the supervision of archangels. It is a well-written and well-told story, and once I started, I could not put it down! I found myself rooting for the heroin, which I liked instantly, and wanting to know where her

romances and training would lead her. The only thing that disturbed me a little was all the hard times the heroin has to go through, because I felt sorry for her. Although she is a strong woman, she gets her ass kicked quite a few times throughout the novel, and it just made my heart ache! In addition, her trainers give her a hard time as well, and she doesn't get much support from her fellow winged either... But it is a great book nonetheless, which I greatly enjoyed! :-)
