**Von A.C. Warneke : Winter's Heart (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Winter's Heart (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Winter... where can I find a man like that?Von MagritteThe hero and the heroine caught my heart, mind and soul.I started reading the book before going to sleep and sleeping was not in my mind anymore for a long time. don't do this mistake if you have to wake up early the next day.Winter is a Hollywood star with many secrets, Flynn is a nobody in the

opinion of many, sometimes even herself. Their attraction is immediate but he is engaged and has a son, so he is off limits... or maybe he is not. The story will keep you reading. Even if there was a whole lot of sex, hot and amazing sex it is not annoying as often, but really interesting to read about what happened to the two. The twist at the end was very interesting. I really liked the characters. Flynn is great and so is Winter and Storm and all the others. I missed Flynn having friends, but she has a great sister, so... it's ok after all. I liked that Winter had some secrets which sounded terrible but he was over them so it just kind of gave him an edge, more than to make him disgusting. The sex scenes are sooooo hot. I love the way they are kinky and how they need it. I want a Flynn friend and a Winter lover. So for all those who think I was not very clear in my opinion... I loved this book, the story, the characters, the kink... everything. I bought already two other books by this author and will keep you in touch. Enjoy the read MBTM
