often found in feline literature now days. "Mrs. Murphy", Pewter Tee Tucker, are the cat's meow in this fast paced, thoroughly delightful romp. Clever dialog, colorful characters and an intriguing plot, culminate in a "can't put it down" experience. Though I figured out who done it early on, Sneaky Pie kept my interest and made me doubt my resolve many times. Not a boring minute in the wole lot.Keep it up Sneaky Pie, don't let your Mom discourage your efforts! Ive already started your next masterpiece "Rest in Pieces", and have all the others with the exception of the new hardbound. Come to the "Book Carnival" in Orange, California and sign one for me, OK?3 von 3 Kunden fanden die folgende Rezension hilfreich. Charming and thoroughly enjoyable.Von Cathy W.I am a small town female Postmaster and a cat lover. I enjoyed reading about the happenings in the Post Office and comparing them to what happens in my town. The interaction between Harry's cat Mrs Murphy and her dog T Tucker were hilarious. A must for animal lovers, and for postal employees.1 von 1 Kunden fanden die folgende Rezension hilfreich. Rita Mae's style with a kick for regional readers.Von Ein KundeRita Mae Brown has a dedicated following, but this, the first in her Sneaky Pie mystery series definitely will add readers to her list. One of the highlights to this book is the in depth use of local subject matter. She has blessed the Deep South, the Mason-Dixon Line and Florida with her wit and lively writing and now she brings it all home to the beautiful Piedmont section of Virginia. This is a series of books that a person should start with the first (this one) and continue all the way through because Rita Mae's characters and stories are too good to miss.

KurzbeschreibungCuriosity just might be the death of Mrs. Murphy--and her human companion, Mary Minor "Harry" Haristeen.Small towns are like families:Everyone lives very close together. . .and everyone keeps secrets.Crozet, Virginia, is a typical small town-until its secrets explode into murder.Crozet's thirty-something post-mistress, Mary Minor "Harry" Haristeen, has a tiger cat (Mrs. Murphy) and a Welsh Corgi (Tucker), a pending divorce, and a bad habit of reading postcards not addressed to her.When Crozet's citizens start turning up murdered, Harry remembers that each received a card with a tombstone on the front and the message "Wish you were here" on the back.Intent on protecting their human friend, Mrs. Murphy and Tucker begin to scent out clues.Meanwhile, Harry is conducting her own investigation, unaware her pets are one step ahead of her.If only Mrs. Murphy could alert her somehow, Harry could uncover the culprit before the murder occurs--and before Harry finds herself on the killer's mailing list.From the Paperback edition.From Library JournalMary Minor ("Harry") Haristeen, divorce in the works, runs the post office in Crozet, Virginia, with a pet cat and dog at her side. After two spectacularly gruesome murders rock the community, Harry attempts to gather helpful clues, while the pets (who converse with each other) do their best to protect her. Despite a few light moments, the "cute" antics of the animals wear desperately thin, failing to shore up the flimsy plot construction or bolster the weak characterization. A disappointment from the author of Rubyfruit Jungle (Daughters, 1973).Copyright 1990 Reed Business Information, Inc.From School Library JournalYA-- At last there is a book that truly recognizes the important role animals have in solving crimes. Braun's "The Cat Who" series comes close, but it doesn't give the in-depth look at animal conversations and sleuthing from the point of view that this title does. The Browns have written a fast-paced, easy-to-read, attention-grabbing mystery sure to be loved by teens. Tee Tucker (a Corgi) and Mrs. Murphy (a gray tiger cat) utilize their superior detective abilities to determine who sends macabre post cards to the next murder victim. These sleuths must throw clues at the dense humans who try to solve the mystery before becoming the next corpse. The witty dialogue of humans and pets enables readers to know and identify with the unique residents in small-town America, and the attractive line drawings depict the industrious animal detectives. This is the first in a crime series; readers will eagerly await the opportunity to scent out the clues in the second.- Claudia Moore, W. T.
