Charming and magical!Von Mikka LiestCalista has never had an easy life - her mother died after her birth, and Calista and her Dad were always so poor that they were \*this\* close to starving. In school, she was as good as invisible. No

friends, and certainly no admirers, causing her to wonder if there was something wrong with her other than her merely average looks. This all changes when her father lands a new job as caretaker of a huge mansion with elaborate, breathtaking gardens - a job which comes with free use of a fancy, wonderful house. Within a few short days, Calista's life changes drastically. Not only does she find out that she is magical (and her mother was, too!), she gains two wonderful friends and meets a mysterious yet charming boy on the beach that she cannot shake from her thoughts... And her looks? Not so average after all! This novel is so satisfying to read - you cannot help but feel happy for Calista! Of course, her new life is not without its problems and dangers, in the end... So there's an added element of suspense that keeps you glued to your Kindle! I will definitely read the rest of the trilogy. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Enthralled Von Fiona Hunt I was given a copy of this lovely book by the author in return for my review. Well, I loved the characters, loved the way the story came along with Calista McCoy, grandmother and father. Who is the mysterious Nicholas and why is Calista so attracted to him. All will be revealed in this magical and entrancing Paranormal book.

Kurzbeschreibung Book #1 in the SPELLBOUND trilogy Life should be charmed for sixteen-year-old Calista McCoy. But being a psychic, empathic, fire-starting witch isn't all magical fun and games, even if it does come with a snazzy new wardrobe and an awesome beach house in California. Now she is a target for the deadly Hunters who seek out new, vulnerable witches. Any exposure of her magical abilities can have disastrous consequences. And with covens all over the world constantly fighting with one another, it's hard to know who to trust. If all that weren't bad enough, now she has to go to some snooty private school for rich kids. not exactly a dream situation for a shy girl raised in the slums of the Louisiana bayou. Things look up when she meets the gorgeous and mysterious Nicholas, and she instantly falls under his captivating spell. But it soon becomes clear that not all of Calista's new friends are who they appear to be... especially Nicholas. And once the thin veil between fantasy and reality is shattered, no one is safe from the evil that has snuck into their lives. Dare to dream... Approx. 75,000 words/ 300 printed pages. Suitable for ages 14+.
