Von John Birmingham : Without Warning (The Disappearance) before purchasing it in order to gage whether or not it would be worth my time, and all praised Without Warning (The Disappearance):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Aus der

Zeit gefallen Von Melzerich Da es sich um "Alternative Geschichte" handelt, ist der Rezensionstitel doppeldeutig: Anderer Ablauf der behandelten Geschichte und in der Form herrlich unzeitgenössisch, sprich politisch hoch inkorrekt (dies aber wieder gekontert durch den netten Einfall, da die "big guns" von Frauen abgefeuert werden). Trotzdem (oder gerade deswegen?) wohl eindeutig ein Buch für Jungs von 14 bis 84. Geradezu atemberaubend die Bereitschaft des Autors detailliert herausgearbeitete, sympathische (Neben-)Figuren lapidar sterben zu lassen. (Ich fasse es immer noch nicht was Fifi und ihrer PKM widerfährt!). Vielleicht das am wenigsten amerikanische Stilprinzip dieses in England geborenen Australiers. Freue mich darauf, bald mit der Fortsetzung zu beginnen. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Action, techy, and tacky in places Von Customer Without Warning: Action, techy, and tacky in places I have now read the novel twice, and both times were a great read as far as the genre is concerned. Action, techy, tacky in places, a premise that seems improbable, but because the characters are so convinced, so is the reader. Birmingham makes it accessible, and what could have turned into political mumbo-j remains primarily a techno-thriller for me, with some greedy banditos lurking in the corners. The writing is clear, and the story doesn't lose swing. I look forward to the next books in the series. All in good measure with this kind of paced violence. 2 von 3 Kunden fanden die folgende Rezension hilfreich. Military SF in originellem Szenario Von Der Kritiker Spannend geschriebene Story, deutlich Military lastig, aber ohne ins unangenehme abzurutschen. Story luft auf mehreren Schauplätzen parallel, ohne sich zu verzetteln. Amerikanisch-typischer pessimistischer Blick auf Old Europe, verbunden mit zupackend und tatkräftig dargestellten Amerikanern - kommt so vmtl bei der Hauptkundschaft in USA besser an, msste aber nicht unbedingt sein. Insgesamt guter pageturner ohne allzuviel Tiefgang - das aber gut gemacht.

Kurzbeschreibung BONUS: This edition contains an excerpt from John Birmingham's After America. In Kuwait, American forces are locked and loaded for the invasion of Iraq. In Paris, a covert agent is close to cracking a terrorist cell. And just north of the equator, a sailboat manned by a drug runner and a pirate is witness to the unspeakable. In one instant, all around the world, everything will change. A wave of inexplicable energy slams into the continental United States. America as we know it vanishes. From a Texas lawyer who happens to be in the right place at the right time to an engineer in Seattle who becomes his city's only hope, from a combat journalist trapped in the Middle East to a drug runner off the Mexican coast, Without Warning tells a fast, furious story of survival, violence, and a new, soul-shattering reality. Pressestimmen Advance praise for Without Warning John Birmingham's ability to seamlessly merge the gritty realism of Tom Clancy with the raw speculation of Michael Crichton is like no other author I've ever read. Brilliant, nail-biting, thoughtful, and excruciatingly pertinent to our times, his latest novel, Without Warning, is simply a tour de force, a true classic in the making. It should be required reading for the entire world. James Rollins, New York Times bestselling author of The Last Oracle What would happen if America vanished? Some would like to find out, but John Birmingham's Without Warning suggests that the Pax Americana would soon be sorely missed. Its a gripping story, for Americans and non-Americans alike. Glenn Reynolds, InstaPundit Delivers all the action and techno-detail that any Clancy fan could wish for. Robert Buettner, author of Orphanage A modern, even postmodern alternate history where the people who wish the United States would go away get what they wished for, and the consequences are meticulously, horrifically worked out in compelling detail through the eyes of a medley of interesting, well-developed characters and tightly plotted action. S. M. Stirling, author of Island in the Sea of Time Praise for John Birmingham's Weapons of Choice Weapons-grade military techno-thriller . . . [Birmingham] describes military hardware with an exuberance and virtuosity that's positively Clancyesque. Time Birmingham's enthralling battleground mixes provocative historical fiction and socially conscious futurism. Entertainment Weekly From the Hardcover edition.
