1 Author: Rebecca Royce Reviewer: Stephanie Jordan Ms. Royce is an amazing author and I'm very proud to be reading her books. Each book she writes her characters take a life of their own. The Winter Solstice Run Series is just another that I'm collecting. Alpha Andrew Tao also known as Alpha Drew of the Los Lobos Pack. It's been a long rough year, but they are slowly rebuilding the town, Wolves were coming back and blood oaths to the Alpha and Pack were taken. Plus there were human mates with human families. Yes, everything was coming together nicely, still some problems but they were handling them. With the Christmas Holidays only a week away they decided to decorate a Big Tree in the middle of the town, not so much for Wolves but the humans. Then there was the Pack Big Run, the whole Pack would run together howling and having fun. Betty Holden Tao also known as "B" has always loved Drew her mate. B would go wherever Drew went to protect him. Drew was going to Shifters Mountain to see Stewart, an old wolf Drew's dad banished from the Pack, (he made cute little wooden toys for kids) so B went with him up the mountain. As they were walking up the path they saw a Mamma Bear and her Cub, mamma started charging them. Drew and B shifted and started running BUT B went the other way to get Mamma Bear to chase her. She was faster than B and caught up with her and slashed her back open. It was very bad.. I was gifted this ARC for an honest and truthful review. In the world of shifter romance the possibilities are endless and always fascinating. Without reservations I recommend this book.
