Von Paige Tyler : Wolf Trouble (SWAT Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wolf Trouble (SWAT Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Alpha wolves sizzling with action, suspense and romanceVon Jean SmithSo has anyone told you about the nice Whispersync

for Voice, Audible Narration? Well if you havent heard of it, let me tell you its wonderful. Remember those days when you would listen to bedtimes stories, or maybe a teacher or librarian that would read aloud to you? Well, Im betting they arent as good as some of the voice actors that present the unabridged versions of books that are available. Wolf Troubles just happens to be one of them. In fact, all of the books in this series are available in Whispersync. Its great because you can either just listen to the story, follow along as its read or switch back and forth. The other great thing is that the price is majorly reduced when you buy the Whispersync version to go with the book rather than as just an audible file. Wolf Trouble is narrated by Abby Craden. She did a superb job and her voice modulation skills rock. Wolf Trouble has been on my list to buy since before it came out and I hadnt been able to get to it. Then I found out the third in the series was coming out. It put me in panic mode because I wasnt caught up with the second let alone third coming out. You can guess what I did I hurried and bought Wolf Trouble then I stayed up all night listening to it. Was it worth the all-nighter? Oh, most definitely. I mean whats not to love? Hot, hunky SWAT officers that just happen to be alpha wolf shifters? Check. Feisty alpha females that are more than enough to give said alphas a run for their money? Check. Bullets flying, action and suspense mounting, heroic rescues, reprehensible criminals and dirty cops stirring up trouble Check, check, check well, you get the picture. All of this before you get to the building sexual tension and scorching hot love making. Needless to say, Im a bit addicted to stories of this nature. Wolf Trouble is the story of what happens when the city of Dallas decides the best SWAT team in the country isnt politically correct because it doesnt have its requisite female officer. I mean forget whether the female is truly qualified or that hiring someone that doesnt fit not only put every other officers life at risk but those they serve as well. Lord save us from the bureaucrats and lawyers running city hall. The one saving grace? The pack alpha, Gage has had his eye on a gal he suspects is a werewolf like the rest of them for a while now. Looks like his timeline just got moved ahead a bit. Xander has absolutely no problem dealing with a woman on his team, especially if she is, in fact, a werewolf like the rest of them that is until Khaki Blake shows up in his squad room. One long whiff of Khaki and Xander knows hes in trouble. Her allure is overwhelming. Whats a guy to do when getting involved with your subordinate is totally off limits? Why, give her hell of course. Hell being the cold shoulder, extra intense and demanding training and whatever else he can throw at her. The only problem? Shes good, damned good and that allure is just getting stronger. Khaki Blake knew she wanted to be a cop from the time she was ten-years-old. Shes a damned good patrol cop too! Lately though things have gotten a bit out of hand. One nasty as get out ex-lover and her world turns upside down. Backup is non-existent and she keeps ending up in sticky situations. The kind of sticky where her blood keeps getting spilled. But something strange is going on because now shes healing at astronomical rates and her speed and strength have grown unbelievably as well. To say she is a little clueless to what is going on is to put it mildly. Then her life turns around on a dime. Sargent Gage shows up in Washington state to recruit her for the Dallas SWAT team. If that isnt shocking enough, he tells her shes a werewolf. All things considered, though, there is a ring of truth to his words. With one wolf being stubborn and too pig headed to realize whats going on with his hormones and the other too new to have a clue, it takes these two a while to get together. In the meantime, the sexual tension between the two is threatening to burn them down. All that aside they still have to deal with the very real concern of chain of command and fraternization. Oh and did I mention the very real threat of crazies and criminals added to the mix. In the end, theyre faced with the question mate? Pack? Career? Is there really a choice to be made? I really like Ms. Tylers Special Wolf Alpha Team and Im sure you will as well. Wolf Trouble had just the blend of action, adventure, suspense, romance, and sex I was looking for. Im really looking forward to reading In the Company of Wolves which comes out on December 1st. *****Reviewed for Xtreme-Delusions.com*****

KurzbeschreibungHe's in trouble with a capital TThere's never been a female on the Dallas SWAT team and Senior Corporal Xander Riggs prefers it that way. The elite pack of alpha male wolfshifters is no place for a woman. But Khaki Blake is no ordinary woman.
