Von Jane Fletcher : Wolfsbane Winter (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wolfsbane Winter (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Pretty good fantasy storyVon AstridBackcover:"Anything with two legs and a pulse." The Iron Wolf mercenaries who guard travelers on the Misery Trail are notorious for their quick and casual sex lives.Deryn may fit the stereotype better than most, but she has her reasons. Tragedy in her childhood has left her wary of forming attachments. If you don't care,

then you can't get hurt, but you can still make a mess of things, such as the outstanding error of judgment that leaves her with no money, forced to spend the winter on a lousy job in a miserable little backwater. There she meets Alana, local healer, vet, and woman of mystery. It does not take Deryn long to find out that Alana is more than she seems, and has her own perilous secret to keep. Yet Deryn still finds herself falling for the woman, so much so that her come-and-go lifestyle is at risk. This would be bad enough, but serious trouble arrives for Deryn and Alana in the form of demon magic from the Time of Chaos revealing that old legends are not merely material for ghost stories around the fire. As the danger increases, who do they need to fear more, the living or the dead?-----My opinion: I've read all of Jane Fletcher's books and though the others were good, I believe this one to be her best so far. I guess this has to do with me being a sucker for good character development. And even though this book has only 264 pages the author does a pretty good job in that area. Deryn and Alana are characters you like to get to know. Both are down to earth, grown up women. Which is more than most lesfic books I read this year presented me with. Also, I liked the plot. The book has a good mixture of both romance and fantasy. For all those looking for a good read - go for it. You won't regret buying this book. And it doesn't hurt that this one feels like the start of a new series.

KurzbeschreibungThe Iron Wolf mercenaries who guard travelers on the Misery Trail are notorious for their quick and casual sex lives. Deryn may fit the stereotype better than most, but she has her reasons. A childhood tragedy has left her wary of forming attachments. As the danger increases, who do they need to fear more, the living or the dead?ber den Autor und weitere MitwirkendeJane Fletcher was born in Greenwich, London but now lives in the south-west of England. Her love of fantasy began at the age of seven when she encountered Greek Mythology. It was her resolute ambition to become an archaeologist when she grew up, so it was something of a surprise when she became a software engineer instead. Janes novels have been short-listed for Gaylactic Spectrum awards and has received other several other awards for her work, including being a Lambda Literary award finalist.
