But of all the people to whom you say I Love You, to how many of them can you also say, I Trust You?"Intelligent and entertaining, mature, masculine and versatile that is how I would describe Would I Lie To You, Brad Vances latest novel, in a few words. A very

enjoyable reading that kept me downright on the verge till the end. The encounter of two brilliant minds with wounded souls and complicated characters amidst a plot development that bears elements of a political thriller between corporate espionage and ordinary crime is a dramatic, however refreshingly straightforward clash of civilizations. Contemporary USA where regular news channels in the name of balance... put on any fag-basher from an organization with Family in its title to talk about gay rights provide the right motor for the action. If you are interested in more than the bare bones of the world where a love story takes place, if you are informed about the current disputes in the USA and if you can befriend the idea that men may be complex without angst and miscommunication, you will love this story. Perfectly written, highly recommended. 0 von 0 Kunden fanden die folgende Rezension hilfreich. However I'm a bit torn about the cliffhanger... There will be another Story but... When???
