Sherwood Smith is an incredible writer with great talent. Wren's War is an exciting ending to the Wren series. I hope that the author will write another book to conclude what happens! (The ending is VERY good but I'd like to have more info on what happens.) This book focuses on all four of the main caracters. Not just Wren and Connor. The plot grows quickly and I wasn't able to put the book down. [I read it in one day.] ^\_~ I love this book and if you've read any of Smith's other books, I suggest that you read this book. And, if you enjoyed the Alanna series by Tomora Pierce (spelling?) I think you'll adore this book. Later! Now get going and buy/ read this book! (It's worth every cent.)~.^ Sailor

I must say, no other author writes such tricky plots with clever and delightfully written story. I like the sentences, they were written very differently from the average author, making it interesting.WREN TO THE RESCUE is out of print now, so you have to buy this book and WREN's QUEST before you run out of time! I wish I hadn't waited, now I'm one book short.0 von 0 Kunden fanden die folgende Rezension hilfreich. She's Back!Von Ein KundeI love Wren and her friends, these books by Sherwood Smith are great to read and entertaining. Every teenage fantasy female fanatic I know has read these books by Sherwood Smith (mostly CROWN DUEL and COURT DUEL) and all of them fell in love with her spunky characters, and the romance was beautiful and romantic also, not thrown in like some other books.More authors need to write great and wonderful books like this author.
