KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. You make me wanna love (Part 1)Von Heike St.I like this story about Abrianna and Payton. Payton has his rules, one of them: he never makes love, it's just sex.Then he meets Abrianna - she's a good girl and not the kind of woman for him to engage. But he can't stay away from her and that complicates things for him.I've loved to read this story and it was very exciting for me. It is very fluently written and the "pictures in my head" very quickly appeared. A great start to a

series! I also love the cover, the colours fit and it fits the story perfectly. I can recommend this story.

Kurzbeschreibung He has his rules. One woman, one night. What does he do to them in one night? He fucks them. No lovemaking, just sex. How do I know? I invaded his privacy. It just happened and I wish I could take it back. Since then he's invaded my mind every second of my life. I wonder how his fingertips would feel on my skin, how his mouth would feel on my lips and how loud he could make me scream. But I'm a good girl. And good girls stay away from men like him. Right? This ebook is Part 1 of the contemporary romance serial novel You make me wanna love .
