Kitty, Kitty! Von Leah Here is the thing, Celia. You are pretty much the Queen of Awesome-sauceness. So say I, and so say we all! And who couldn't agree? Everything that flows from your pen (computer? Tablet? Whatever.) is a delicious blend of funny, dramatic, suspenseful, and just darn fun! Take You're Kitten Me. The newest series by Celia is a blast. So far centering around the coming-out-of-the-closet of the tigers in her much-like-ours world, the first story, Fast and the Furriest introduced us to the tiger pride, and its leader, Ares. Poor Ares. Even though the lions and wolves and bears (Oh, My!) are out to the public, the tigers just want to be left alone. And they stay hidden that is, until they are rudely shoved out of the closet by an article, complete with photos, in a nasty little bit of yellow journalism. An article printed under the byline of the woman Ares thought was his. Oops. Of course, it doesn't help that the article points out that, if you can pull a tiger's tail, he (or she) belongs to you forever. Ah, Hell, thou hast no idiocy such as that of a human shifter stalker. Uh, hey, lady? Really not cool to terrorize the poor pregnant tiger lady up a tree trying to pull her tail. Uh, yeah, I said pregnant tiger lady. Oy. Needless to say, it was a zoo. And it doesn't help that DoPE (Department of Paraphysical Entities) is trying to capture high ranking female shifters in order to force them to mate with humans, so that said humans puppet masters can take over the shifter groups and control them (read: Turn them into war machines). Again, Oy. In this second book, the women are still under attack, and the stakes continue to get higher. A few women have been taken or attacked and had their tails pulled Ares' sister among them. And the daughter of the national wolf alpha, Veronica, Ronnie to her friends, has been attacked twice. Desperate to protect her, her father sends her back to the tigers, where her best friend and Ares' mate, Zoe, lives. Only, they aren't on the ground for ten minutes before Ronnie is attacked by humans twice. Though she has a knife at her throat, the human press doesn't catch that part, only the part where Ares' Second, Braden, and two of his security team kill two of the attackers and critically injure one. Don't mess with an Alpha Second when his gonna be mate, no matter if she is a wolf or not has a knife at her throat. Ah, well. So much for the whole We really are just harmless little kitty cats motif. And of course, DoPE (perfect acronym, BTW) jumps on the opportunity to lock up Braden, his security team and Ronnie as well. And you can just bet what will happen to poor Ronnie if a certain manipulative General gets his hands on her. Daughter of the National Wolf Alpha, chosen of the National Tiger Second? Score for General Disgusting Monster, all the way around. Hum you know, as usual, the humans come off as the true monsters. Well, yeah, I can see it. If shifters showed up amongst us tomorrow, you can pretty much call it from the UF books some salivate to get themselves a piece of critter ass while others variously hate, intend to kill, and intend to force them into military service or onto autopsy tables in the name of National Security. Sigh. Hey, as if the guy next door who mowed your yard for you when you were sick and his wife who brought you chicken soup are suddenly monsters just because you suddenly found out that they like to run on four legs when the urge strikes. Ugh. Humans. The gift that keeps on needing a good gene pool cleaning . . . So, again, Celia is Awesomesauce to the Max! And you really should rush right to your reading device, or local book store, and grab up everything she has written. But starting with the Tiger Tails series is a great start if you haven't done so already. Enjoy! I absolutely did. I sometimes get books from Celia in exchange for realistic reviews, but in this case, I just bought it. Couldn't help myself So excited to get the next in the series!

Kurzbeschreibung Want to mate a wolf? It's easy. Just make himer, herhowl. Braden, the Second in the national weretiger pride, put Veronica on a plane back to wolf lands for her own protection. With DoPE the Department of Paraphysical Entities secretly determined to control shifters through any means necessary, he needed her out of harms way. Especially since any means necessary includes the forced mating of the daughters of alphas to humans of DoPE's choice. But going home didn't keep Veronica safe DoPE still went after her so now she's back in Wilden Back with him. With her so close, her delicious scent calling to him, taunting and teasing him at every turn, he's not sure he can resist the curvaceous, delicious Veronica much longer. Screw it. He can't. He wants her and hell figure out a way to have hereven if he is a tiger and she's a wolf. Except DoPE hasn't given up. They have new tricks up their sleeves deadly ones and they're resolute to test them on Braden. Can he survive their tactics and keep Veronica safe?
