Von Pamela Redmond Satran : Younger (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Younger (English Edition):

The main character behaved all the time like "What's the problem, I never said I am 20 years younger.". Obviously, the writer was too weak to deal with a lie. Because, good

people also lie. There are some situations in life when people choose to lie. The main character did that and then was pretending like never happened and everyone else just got it wrong by a mistake. And when she told her girlfriend about her age, she tried to lecture her in the same time. This was soooooo I-know-the-best-I-am-like-your-mom. I really didn't like her attitude. Honestly, I like the series much more. Actually, I bought the book only because I like the series. 0 von 0 Kunden fanden die folgende Rezension hilfreich. I wanted to read the book due to the tv series Von Clarice in Cali...I'm not finished yet with the book but I'm already through it 2/3. It's well written and the main idea is very similar. I'd say her lesbian friend is the most accurate if you compare it to the tv series. The young guy seems to be brighter in the book and her bff at work more grown up in the book, or better said planning out her life for the next 10 years when to get married, have a career and kids...That's my impression so far from the book if I compare it to the series. They didn't alter huge parts of the book which often happens that they only take the main idea of it but not the actual "scenes". I bought the book itself used here on . the shipping time was normal and packing was very good. The condition was good, as described.. looked like a library book which is fine with me when I can save some bucks on books.

Kurzbeschreibung A story of inspiration and transformation for the really desperate housewife now a TV series from the creator of Sex and the City, starring Sutton Foster and Hilary Duff! She's old enough to be his mother. Alice has always looked young for her age, even with her graying hair and her dowdy New Jersey housewife style. Make that ex-housewife: Now that her husband's gone and her daughter is grown, Alice is in desperate need of a whole new life. So she lets her best friend Maggie, a hip New York City artist, transform her on New Year's Eve. Soon, thanks to the wonders of hair dye and tight jeans, Alice looks really young, as one night in a Manhattan bar confirms. At midnight, she kisses a boy who was in diapers when she was in high school. She's having too much fun to care. The white lie Alice tells Josh gets her thinking that if no one asks her age, she doesn't have to tell. So she applies for a job she had briefly before becoming a full-time mom and gets it. Meanwhile, Josh is falling head over heels for Alice, who's just way cooler than girls his age. He figures she's about twenty-nine and for the first time since she was twenty-nine, or possibly ever, Alice feels that life is ripe with possibility. Unfortunately one possibility is that she's gonna get caught. Challenging the adage that the truth will set you free, *Younger* is a hilarious and insightful story that proves that you're only as young as you feel.
