Von Marion Zimmer Bradley, Deborah J. Ross : Zandru's Forge (Clingfire Trilogy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Zandru's Forge (Clingfire Trilogy):

immediately. A Part of Zandru's Forge (the plot around Carolin Hastur) is the same as in the Hawkmistress, although seen from a different point of view and with the story before and after Hawkmistress.

KurzbeschreibungIn the era of The Hundred Kingdoms, a time of war and unrest, a legendary friendship is forged between king and keeper which will lead to a new destiny for Darkover.From Publishers WeeklyIn the second Clingfire book (after 2001's well-received The Fall of Neskaya), Ross does justice to her late coauthor's vision even if the plot is weaker than most in the Darkover saga. At the end of the age of the Hundred Kingdoms, "laran" (psi power) can be used to make terrible weapons that can kill thousands from a long distance. Carolin Hastur, heir to the Hastur throne, and Varzil Ridenow, a noble child with extraordinary laran, resolve to eliminate the threat posed by these weapons. What the pair devise will forever change the face of their world. These two characters, however, are less interesting than Carolin's friend Eduin MacEarn, who finds himself in a Hamlet-like struggle after vowing to take vengeance against the Hasturs who defeated his father. Unfortunately, a deus ex machina to dispense with Eduin's uncertainty arrives about halfway into the story, after which little conflict or suspense remains. Darkover fans who wondered how Varzil's Compact of Honor came about will welcome this entry, but it's unlikely to win the series new readers.Copyright 2003 Reed Business Information, Inc.KurzbeschreibungIn the era of The Hundred Kingdoms, a time of war and unrest, a legendary friendship is forged between king and keeper which will lead to a new destiny for Darkover.
